**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign-file the application pursuant to 37 CFR 5.45(b).

Sir:

In response to NOTICE OF OMITTED ITEM IN A NONPROVISIONAL APPLICATION, (copy attached) mailed on August 4, 2004, Applicants petition to be accorded the January 23, 2004 filing date of the original papers in this case and request refund of the \$130 petition fee transmitted with this RESPONSE for the following reasons:

1. The August 4, 2004 NOTICE OF OMITTED ITEM IN A NONPROVISIONAL APPLICATION states that sheet 2 of the drawings of the above application, including FIGs. 2,3 appears to have been omitted from the application.
2. Submitted herewith is sheet 2 of the drawings of the above application, including FIGs. 2,3 described in the specification.
3. Attached in the undersign's check in the amount of the 37 CFR §1.17(h) fee (\$130). Please charge any deficiency to Deposit Account No. 500917. Two duplicate copies of this paper are attached.
4. Applicants contend that the purported omitted sheet 2 of the drawings of the above application, including FIGs. 2,3 was in fact deposited with the U.S. Patent and Trademark Office (USPTO) with the nonprovisional application papers.

5. Filing of the purported omitted sheet 2 of the drawings of the above application, including FIGs. 2,3 with the January 23, 2004 filing papers is evidenced by:

(1) the remaining contents of the undersign's file copy includes only documents consistent with the January 23, 2004 filing of sheet 2 of the drawings of the above application, including FIGs. 2,3;

(2) the undersign personally filed the January 23, 2004 documents and the undersign's usual course of action includes a personal review of documents immediately prior to filing to assure that all documents, including in this case, sheet 2 of the drawings of the above application, including FIGs. 2,3, are present; and

(3) the receipted postcard (copy attached) received by the undersign from the PTO simultaneous with the January 23, 2004 filing evidences the filing of two sheets of drawings (sheet 1 with FIG. 1 and sheet 2 with FIGs. 2,3).

6. Applicants hereby request refund of the \$ 130 37 CFR §1.17(h) fee because the original January 23, 2004 filing papers included the purported missing sheet 2 of the drawings of the above application, including FIGs. 2,3 described in the specification.

NOTICE OF OMITTED ITEM(S) IN A NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

A filing date has been accorded to the above-identified nonprovisional application papers; however, the following item(s) appear to have been omitted from the application:

- Figure(s) 2,3 described in the specification.

I. Should applicant contend that the above-noted omitted item(s) was in fact deposited in the U.S. Patent and Trademark Office (USPTO) with the nonprovisional application papers, a copy of this Notice and a petition (and \$130.00 petition fee (37 CFR 1.17(h))) with evidence of such deposit must be filed within **TWO MONTHS** of the date of this Notice. The petition fee will be refunded if it is determined that the item(s) was received by the USPTO.

II. Should applicant desire to supply the omitted item(s) and accept the date that such omitted item(s) was filed in the USPTO as the filing date of the above-identified application, a copy of this Notice, the omitted item(s) (with a supplemental oath or declaration in compliance with 37 CFR 1.63 and 1.64 referring to such items), and a petition under 37 CFR 1.182 (with the \$130.00 petition fee (37 CFR 1.17(h))) requesting the later filing date must be filed within **TWO MONTHS** of the date of this Notice.

Applicant is advised that generally the filing fee required for an application is the filing fee in effect on the filing date accorded the application and that payment of the requisite basic filing fee on a date later than the filing date of the application requires payment of a surcharge (37 CFR 1.16(e)). To avoid processing delays and payment of a surcharge, applicant should submit any balance due for the requisite filing fee based on the later filing date being requested when submitting the omitted item(s) and the petition (and petition fee) requesting the later filing date.

III. The failure to file a petition (and petition fee) under the above options (I) or (II) within **TWO MONTHS** of the date of this Notice (37 CFR 1.181(f)) will be treated as a constructive acceptance by the applicant of the application as deposited in the USPTO. **THIS TWO MONTH PERIOD IS NOT EXTENDABLE UNDER 37 CFR 1.136(a) or (b).** In the absence of a timely filed petition in reply to this Notice, the application will maintain a filing date as of the date of deposit of the application papers in the USPTO, and original application papers (i.e., the original disclosure of the invention) will include only those application papers present in the USPTO on the date of deposit.

In the event that applicant elects not to take action pursuant to options (I) or (II) above (thereby constructively electing option (III)), amendment of the specification to renumber the pages consecutively and cancel incomplete sentences caused by any omitted page(s), and/or amendment of the specification to cancel all references to any omitted drawing(s), relabel the drawing figures to be numbered consecutively (if necessary), and correct the

references in the specification to the drawing figures to correspond with any relabeled drawing figures, is required. A copy of the drawing figures showing the proposed changes in red ink should accompany with any drawing changes. Such amendment and/or correction to the drawing figures, if necessary, should be by way of preliminary amendment submitted prior to the first Office action to avoid delays in the prosecution of the application.
